1960's Model Pattie Boyd's Long Hairstyle Tricks

1970's!

Starting with the eyes I applied a primer and set it with powder.

Next taking a black eyeshadow I applied a thick line in my crease from the inner to outer corner of the eyes. Blending out lightly.

For the lid color I used a shimmery pink and applied to the entire lid.

Next I applied concealer under my eyes.

With a liquid eyeliner I applied a thicker line with a slight wing to the outer corner. I also used the liner to draw on some bottom lashes.

For eyebrows I'm going to mimic an Audrey Hepburn type look and fill them in with a pencil.

I applied mascara heavily to both top and bottom lashes.

I used a lighter coverage foundation for the face and applied blush to the outer portion of my cheeks and up towards my temples.

For lips I used a light pink cream color and topped it with a pink gloss.
